

### REMARKS

The specification has been amended to make the arrangement of the application generally correspond to the guidelines suggested in MPEP §608.01(a) including the insertion of section headings and subheadings. An Abstract of the Disclosure has also been included on a separate page for addition as a separate new page 11 of the application. Minor errors noted in the specification not related to patentability have also been corrected. No new matter has been added.

Claim 12 of the 19 claims originally presented in the original application has been cancelled. The remaining claims have been amended to eliminate multiple dependencies, to correct minor errors therein and to better correspond to U.S. practice.

In view of the preceding amendments and remarks, applicant respectfully submits that the present application is in condition for allowance which is requested. The Examiner is encouraged to contact the undersigned to resolve efficiently any formal matters or to discuss any aspects of the application.

Respectfully submitted,

Stevens & Showalter, L.L.P.
